- 3,626-square-foot interior
- 2,100-square-foot exterior
- Staffing available on request

The interior design of this villa is contemporary and modern, yet cozy and elegant at the same time. With a neutral color palette, the outdoor environment and views are that much more vibrant. Lazy afternoons or evenings can be spent on the wraparound porch or on the poolside sundeck enjoying a gentle breeze and a favorite cocktail. Your “home away from home,” this villa has an open concept floor design, making it light and spacious. Perfect for families with smaller children, as all of the bedrooms open up to the interior of the villa.

The master bedroom on the top floor is decorated in a beige and white color palette and is the size of a small NY apartment. This bedroom has a king size bed, comfortable chaise lounges and a desk, and offers views over the marina and the Sir Francis Drake Channel beyond. The en-suite bath with two-person shower and double Jacuzzi tub also has magnificent views from an oversize window over the turquoise blue waters of the Caribbean. The two additional bedrooms are on the first floor of the villa. The “Blue Room” has a blue color scheme, a king size bed, and a comfortable seating area, as well as its own en-suite bath with two-person shower and double Jacuzzi tub. The smallest bedroom in this villa is the “Red Room,” with a king size bed and bathroom located across the hallway, with a two-person shower and double Jacuzzi tub. The fully equipped kitchen can be used to prepare any meal, but most guests

enjoy their meals in our world class restaurants. For a special and fun night, the do-it-yourself barbeque is a popular dinner choice at this villa. We will make all of the preparations, you do the grilling, and we will come back and clean up.

This villa also has a small “pool apartment” that can accommodate two adults and two small children, and features two bedrooms and two baths.

*This villa is available on an Estate only basis or inclusive of meals. The inclusive option includes breakfast, lunch and dinner daily, as well as non-alcoholic beverages for up to six guests. Butler and chef services can be requested on an à la carte basis. Housekeeping service is provided twice daily on either plan. Regardless of the plan chosen, the Villa Director will oversee every aspect of the perfect villa stay as personalization through customization is what we do best at Peter Island Resort and Spa.*

*\*\*Additional guests are welcome at an additional nightly charge. Alcoholic beverages and taxes are additional.*
